

# -GOMA-

**Dear Expectant Mother;**

I'm so excited you are taking the time to read about my family status. I'm truly grateful you have the strength and courage to consider this adoption plan.

Me: Looking the way to welcome your grace

I admire your selflessness. You are truly an angel. I want you to know I'm honored to be considered as your child's future parent (mother).

Me: longingly waiting your response.

If you choose me, I look forward welcoming your baby into my home and raising him/her with all the love I have to offer while creating wonderful memories together.

Circumstances have taught me that the most important things in life aren't possessions or even

accomplishments—but people, family, loving others, and living our faith. The philosophy of parenting starts with loving any child unconditionally, and giving him/her a firm foundation of security and nurturing. Every child deserves to feel wanted, special, and loved, and I know I can provide that.

Myself: in a hopeful mood

Please know that the baby will be surrounded with endless love. I will always make sure the baby is safe and protected, and I will constantly support his/her hopes and dreams for a fulfilling life. I want to continue my family traditions and look forward to start new ones with your child too!

I will work hard to honor your wishes and be the parent you dream of your precious child.

I'm with my Nieces and Nephews

I'm nervous and excited for this most fulfilling chapter of my life. I cannot wait to open my home and heart to you and your baby!

I'm able to meet all responsibilities as a mother very well. I'm confident for my future plan.

I'm habitual taking care of children as I raised most of my cousins, nieces and nephews. They are adults and I'm pretty much sure they are going to share their love and fraternity with the baby that I adopted.

I've a plan of care in integrity like, raising (feeding, cleaning, entertaining), schooling (reaching to and picking from his/her school), or taking extensive care at the time of sickness and so on.

When the child reaches to school age, he/she will be well taken care of. Over the school timing, I'll take him/her out weekly to participate in community cultural events like festive occasions. In our cultural events, children are taught to sing, dance and entertain with different games.

Me: with my Neices

My families such as nieces, nephews live around. They often visit my house.

I want to assure you that I'm pretty much confident on my financial and management part to raise a child (ren) well. I know some parents are overwhelmed by the situations they face raising children.

I'm in a cultural costume

However, if we be cautious from the beginning, no issues will be arised. I know many parents have had successful adoptions and gone on to raise totally healthy and happy children.

While concluding the Idea in gist, I'm excited to raise the baby in a friendly relationship. I assure every aspects of his/her life will be fulfilled in a well-balanced manner.

I work from home. So I can have plenty of time to take care of the child. I enjoy playing with babies, teaching them indoor games like pair-able toys, scrables and chess board in case the child is grown-up. I also enjoy outdoor games like badminton, basket ball etc.

I live in a quiet, family-friendly neighborhood with nice recreational areas. My house has three bedrooms and enough additional space eager to fill with love and laughter!

This is my beautiful House

I fell in love with my house the moment I saw it and knew it would make the perfect home to raise a family! The part of my home I love most is the master bed-room and the shape of living room and also the beautiful back yard. It has got enough area for additional recreation.

I am waiting to make slides and trampoline in the back yard, when my baby grows bigger. I love bike rides and swimming. I will teach everything I know in early age and make independent when he or she reach adolescent.

My Beautiful Back Yard

All essential groceries and shopping stores are in one or two miles distance. I'm excited for the opportunity to grow my family and raise your child in a

community I love so much.

I host a large cookout every summer for all our family and friends, and we also go visit our relatives during our festivals. We all enjoy traveling and exploring new areas together. All of our family and friends are so excited and supportive of this adoption journey.

As a parent, I plan to honor and respect your relationship to the child through open discussions, a life-book, and talking about you and your family.

I believe it's important to discuss about adoption with a child from an early age and I'm comfortable with whatever level of openness you'd like to have, whether it be exchanging photos, phone calls or emails.

I'm highly obliged to your selfless big heart.

Thanking you in anticipation.

Yours Adopting Mother
