

Chris & Paige

Hi, we are Chris & Paige! We are humbled that you are taking the time to review our profile as you consider the plan for you and your child.

Any child placed with us will always know of the selfless and loving decision made by their birth parents. We will always speak highly of the birth parents and share that a courageous and brave decision brought the child to us. We think it is important for a child to have a connection to their biological family, but respect the level of openness you wish to have. Of course, we will always share pictures and letters.

We want you to know that we are committed to providing a loving and nurturing home. We have been eagerly preparing ourselves to become parents and we are excited about the possibility of starting our family through adoption.

We have always known that we wanted to grow our family through adoption. Thank you once again for considering us to be the parents of your child and for giving us the opportunity to show you a small snapshot of what our lives look like through our adoption profile.

Our Story

We met in 2011 in a Business Management class in college. Paige played collegiate volleyball and Chris was in a sports-related role in Student Government and naturally became Paige's biggest fan (foam finger and all). After a year of friendship, Chris convinced Paige to go ice skating, promising this one-on-one time was "not a date". That "not a date" turned into marriage in 2015. We've spent our years together building a strong foundation, raising a puppy (Gabi) that we adore, trying our hand at home DIY, enjoying concerts and sporting events, and traveling.

Paige

Paige embodies what it means to be fun, loving, caring, and a truly good hearted person. Paige loves spending time outdoors—whether that's taking a walk together in the neighborhood with our pup, hitting a volleyball in the backyard, or camping & hiking with her younger sisters. She is also an avid reader and loves to keep me up-to-date on how many books she reads each year (more than 50!).

What I love about Paige the most, outside of her fun and bubbly personality, is how effortless it is for her to show and share compassion with anyone she is around. She is someone who asks questions and loves to engage in conversation about any topic you can name. She is the first person to help in any situation—no questions asked. Especially if it has anything to do with taking care of our nephews and nieces. Her personality and energy are what draw so many people to want to be around her and I admire that about her so much. When our nephews and nieces need cuddled and loved on, they always turn to Paige.

These are just a few of the reasons I think Paige would be the best mother to any child placed in our home. Every day it would be her priority and honor to make sure any child in our home felt loved, cared for, and heard.

Chris

The thing I love most about Chris is that he loves his people well, and I am honored to be one of those people. His love for us (Gabi and I) is evident in the way he takes care of us. He won't walk out of the room without asking me if I need anything. I love his team mentality in our marriage—you can find him helping with dishes and laundry often.

Everyone who knows Chris loves him—he is so fun to be around and has a gift for bringing people together. We often setup a projector on our back patio to watch games and he grills food for everyone. Chris loves hosting and providing for people. He is very passionate about Michigan State sports, even during losing seasons, and handles all the trash talk with a smile and a witty comment.

One thing I love about Chris is that he is not scared of anything—he's always ready to try a new hobby (candle making) or try out a new sport (pickleball) or plan a vacation to a new country (Australia). I admire his fearlessness!

Chris is an adored uncle by our two nephews and two nieces. They absolutely adore playing and joking with him and he adores them right back. I know without a doubt that any child loved by Chris will be immensely blessed by his fun, positive personality and his loving nature.

Our Hobbies

Exploring the world has been a huge passion of ours and is something we desire to share with any child placed with us.

Some of our favorite places we have traveled to internationally are Paris and Cabo. Our favorite places to travel domestically are Florida and Hawaii. Chris grew up going to Disney World frequently and this is a memory we would also love to share with any child placed in our home.

We both enjoy being outside and playing sports competitively. Chris loves to golf and play hockey. One of our newest hobbies is playing pickleball. We love to get together to play with our friends and we also play in a competitive league at a local tennis club during the week.

Pictured above is our mini cockapoo, Gabi. Gabi is named after the beach we honeymooned on in 2015 in Punta Cana, Dominican Republic.

Gabi is a loving and loyal dog who loves cuddling with anyone she meets! She loves to run around in her big backyard, play fetch, and sneak as many treats from her humans as she can.

Our Home

In February of 2023, we designed and moved into our new home. Our home has 4 bedrooms and is in a newer community close to a local metro park with miles of trails to explore. Our neighborhood also has a community

pool that you can find us at most sunny days.

Our favorite thing about the community we live in today is the amount of kids that are out and about playing with each other. Any child placed with us will have plenty of time playing with all of the neighbors!

Our neighborhood also frequently puts on events for adults and kids. From a huge 4th of July party to many houses participating in trick or treating there is always something going on in the neighbor hood for the kids to do!

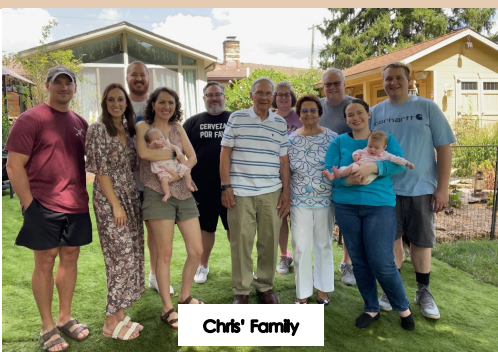

Our Extended Family

We love to spend time with our extended families. Both sets of parents have been married for over 30 years and are wonderful examples of loving and healthy marriages for us.

For every birthday, Chris' family gets together to celebrate. Chris' grandparents also have a pool where we spend many weekends in the summer swimming together. Chris' favorite family tradition is playing bingo and eating pumpkin pie every Thanksgiving. Chris and Paige also enjoy playing games with Chris' brother and sister-in-law.

Paige's family lives on a small farm where they raise beef cattle and grow soy beans and corn. Our nephews love to show us the animals and teach us all about farming which they get from Paige's brother, a farmer, and sister-in-law, a middle school teacher. Paige and Chris live close to Paige's two sisters and we often host them and their significant others for family dinners, game nights, and hanging out on the back patio. Any child placed in our home will be showered in love by both Chris and Paige's extended families and have lots of play time with our 2 nephews and 2 nieces.

Paige's Family

Career & Education

Paige graduated college with a degree in Finance & Accounting. Paige is currently a Senior Consultant with a firm specializing in I.T. systems.

Chris graduated college with a degree in Finance & Accounting. Chris is currently a Senior Investment Consultant for a Fortune 100 company.

We are very fortunate to work for companies with flexible time off and work-from-home options that would allow us to prioritize our family.

Our Promise

We are honored that you took the time to learn more about us and the life we want to provide any child placed with us. Although this profile is focused on us, we want you to know that we look forward to learning more about you and the desires you have for your child. We are committed to any level of openness you are comfortable with and look forward to answering any questions or providing more information.
