I. Letter from Executive Director

Dear Friends:

Adoption Circle, a state licensed, non-profit adoption agency, welcomes the opportunity to share our Agency and its services with you. The Agency was founded on the philosophy that children deserve the best we can give. Our **circle** is a symbol of the continuum and life-long relationship between adoptive families, birth families, children and adoption professionals.

To introduce you to Adoption Circle's programs and services, we have included our Agency Information Packet. If you wish to apply after reading the information packet, complete and sign the **Agency Application**. Return the completed documents to Adoption Circle with the \$250.00 **non-refundable** application processing fee.

We hope this information helps you to better understand Adoption Circle. We wish you well in your pursuit of adoption and look forward to the opportunity to work with you in the future.

Sincerely yours,

Pamela S. Hook, LISW-S

Executive Director

II. Adoption Circle's Mission Statement & Philosophy

Adoption Circle's philosophy is that all children have the right to love, security and nurturance; the foundation necessary to become a healthy, happy and productive adult. Adoption Circle realizes that this type of environment may not always be possible if a child remains with his or her family of birth. It is the Agency's belief that birthparents have the ultimate responsibility to make parenting decisions for their children. Adoption should be a parenting decision that birthparents make for their children after considering all of their options, free of pressure and coercion from all potential sources.

The primary focus of all of Adoption Circle's programs is to assist in adoption planning and the placement of newborn and young children. Adoption Circle will effectuate its philosophy and purpose by providing professional counseling for birthparents and adoptive parents contemplating an adoption plan.

Adoption Circle believes that if adoption is the choice for children and their parents, it should be facilitated by professionals who realize that adoption is a life-long process. Adoption Circle accepts this responsibility and Adoption Circle's policies reflect a commitment to the needs and best interest of the children of today, the adults of tomorrow.

Adoption Circle is committed to providing all parties to an adoption (birthparents, adoptive parents and adopted persons) with the support necessary to make the best possible decision for a child. The Agency maintains a staff of highly trained, state certified adoption assessors, who are available to perform adoption services including birthparent assessments and adoptive homestudies throughout Ohio. Adoption Circle may also provide adoption services to United States citizens in compliance with the Interstate Compact Rules and Regulations.

Adoption Circle shall be an Agency of advocacy for all its clients. The Agency believes it is important for all parties to be actively involved in designing their adoption plan. Adoption Circle will always attempt to meet the needs of its clients so long as facilitating the designed adoption plan is in full compliance with Ohio law and the Agency's license as a private child placement agency. Adoption Circle provides its services in full accordance with Federal and State Law including the Multi-Ethnic Placement Act as amended.

IV. Adoption Programs

Infant Adoption Program

Adoption Circle has developed a true expertise in the facilitation of adoptions in which the Adoptive Parents and the Birthparents have selected each other prior to contacting the Agency. Often, these adoptions are arranged by medical professionals, lawyers or mutual friends. These adoptions are handled through the Agency's Target/Identified Adoption Program.

The Agency is experienced in *quickly and efficiently* providing services so that the adoption will proceed without delay. All the services necessary to effectuate a successful adoption, including, homestudy, birthparent assessment and counseling and legal services are provided as part of this program. Adoption Circle makes every effort to provide services to anyone interested in beginning the adoption process. Adoption Circle will offer each applicant the opportunity to adopt. However, the Agency cannot guarantee that a placement will occur or the length of time that it may take for the placement to occur. Adoption Circle provides its services in full accordance and compliance with the Multi-Ethnic Placement as Amended.

Step 3: Orientation and Education Process

An applicant is invited to begin the adoption process by attending the Orientation and Education meeting held in Columbus. This meeting is scheduled during the work week. It is a full day group meeting designed to provide you with adoption information that will orient you to the many facets of adoption. Topics to be addressed include Agency philosophy, programs, procedures, services, legal

issues, birthparent information, and types of adoption. Applicants will hear birthparents and adoptive parents who have worked with Adoption Circle relate their adoption experiences. Openness in adoption is discussed so that all applicants will eventually make informed decisions as they design their adoption plans. This meeting also provides the applicant with the opportunity to talk with other applicants and learn of support groups. Adoption Circle hopes this will be a time to allow the applicants to become better informed, educated and comfortable with the adoption process.

After attending the Orientation and Education meeting applicants are scheduled for the next required training meeting. Adoption Circle holds this a six hour small group meeting in the agency office training room. This meeting gives you the opportunity to explore and question issues such as genetics, bonding and attachment, myths and fantasies in adoption, parenting the adopted child, culture, and child development.

Additionally, all applicants without children or who have children older than five years of age, must complete a childcare class. Please visit www.adoptioncircle.org and go to education and training for specific child care classes. All prospective adoptive parents must have current certification in infant CPR. The Agency also provides applicants with additional training resources, i.e. reading lists, on-line education and may require you to read specific books prior to approval for adoption. Adoption Circle encourages you to become involved in adoption support groups and educational workshops in your community.

Step 4: Adoptive Homestudy

After you attend the Orientation and Education and Small Group Meetings, the process will continue with the Individual Adoptive Homestudy Assessment. You will be assigned a state certified adoption assessor who will visit with you to conduct your homestudy. These meetings will include interviews and discussions on a variety of adoption and parenting related issues. You and your homestudy assessor will discuss your social, medical, psychological and family history and other areas that relate to your decision to adopt.

Your social worker/assessor will assess your home to make certain that it meets the standards set by the State of Ohio and the Agency. You will have the opportunity to candidly discuss your motivation for adoption and your anticipated strengths and weaknesses as a parent. Adoption Circle views the homestudy process as an opportunity for you to assess your ability to successfully parent an adopted child. The goal of the homestudy is to educate and prepare you to reach a realistic decision regarding the adoptive placement of a child in your home.

Applicants will be given a list of specific documents which must be completed and given to the assessor/social worker during the homestudy process. Among the required forms are background checks, i.e. state and federal criminal, driving records and child abuse clearances, financial statement, medical form and four reference letters. All forms required by the State of Ohio will be provided to you

by Adoption Circle. All documents will be reviewed by your social worker/assessor to determine the readiness of an applicant to parent an adoption child. Adoption Circle reserves the right to request and require other documentation deemed necessary for the assessment of an adoptive applicant on an ongoing basis throughout the homestudy and adoption process. This may include reports on consultation with medical, psychological, and/or legal professionals. The homestudy cannot be completed if any requested documents are absent from your file.

The Agency's goal is always to be supportive and helpful in guiding you through your homestudy. We will lend a helping hand whenever possible. Your social worker/ adoption assessor will schedule appointments and phone calls with you at mutually convenient times but you must be prepared to dedicate a substantial amount of time to the process. The adoption process will likely require you to take time off from work. Adoption Circle will complete a written homestudy report and notify you in writing the results in accordance with Ohio law.

Adoption Circle encourages you to complete all required aspects of the homestudy in an organized and timely manner. Delays in completing your homestudy without Agency approval may result in the termination of the home-study process. The information which you will provide may become outdated and the process will have to begin again at your expense.

Homestudy Update

A Homestudy may be updated every two years from the date of approval of the initial Homestudy. Applicants seeking to adopt another child as well as those who have not received a placement during the 24 month period will need to update their original Homestudy if they desire to continue in the adoption process.

Homestudy updates include personal interviews and provision of current documentation. Paperwork required (but not limited to) includes a professional reference as well as medical, financial and background clearances. Additional documents are required depending on each applicant's individual changes since the original Homestudy i.e. changes in residence, employment or number of household members.

Step 5: Family Profile

You will be asked to write a family profile that once you are approved to adopt may be shared with birthparents upon their request. Your profile is the tool by which you are initially introduced the birthparents considering an adoption plan. This four page document should describe you and your spouse, if you are adopting as a married couple. If there are other children living with you, they should also be included. Details about your life, including age, religion, values, life experiences, occupation and home environment should be incorporated into your family profile. Agency staff members will be available to assist you with this assignment. When your homestudy has been approved, Adoption Circle will begin circulating your profile to Birthparents working with the Agency. Adoption Circle offers each approved adoptive applicant the opportunity to share their profile on the agency's website.

Step 6: Adoptive and Birthparent Match

When your homestudy has been approved and middle fee has been paid, Adoption Circle will begin circulating your profile to birthparents working with the agency. At this time adoptive families should prepare for placement of their child. Adoption Circle will notify the adoptive parents when they have been selected by a birthmother and the Agency will send all available social and medical information regarding the birth parent(s). The adoptive parents can then select back for a mutually decided adoption plan.

Step 7: Surrender and Placement

No sooner than seventy-two (72) hours after the birth of a child a Birthparent may relinquish his or her parental rights and legal custody to Adoption Circle by voluntarily signing an *ODJFS 1666 Permanent Surrender of Child*. The Agency will never accept a surrender from a Birthparent until the Birthparent appears to be making an informed and voluntary decision, free of all duress and pressure. Shortly after accepting a surrender, Adoption Circle will place the child in the approved home of the adoptive family and shall perform post-placement supervision.

VII. Post Placement Adoption Services

The pre-finalization period shall be no less than six months from the date of placement. During that time Adoption Circle retains legal custody of the child and will perform post-placement, pre-finalization supervision. A caseworker/adoption assessor will make a home visit with the adoptive family no later than seven days following placement and shall make face-to-face visits during the post-placement, pre-finalization period. Per Ohio Law, all visits are in the home and both parents must be present. All members of the household must be present for at least two visits during a six month period.

During the post-placement visits your caseworker/adoption assessor will observe your family to make certain that your child is thriving in your home, surrounded by love and appropriate care. The assessor may offer parenting suggestions and will assess the total family environment to insure the health and welfare of the baby.

Adoptive parents are required to send pictures of the baby and letters describing the baby's progress on a monthly basis to the Agency for a period of one year from the date of placement. These items will be shared with the Birthparent(s) upon request.

For six consecutive weeks immediately following placement, one or both adoptive parents must remain home with the infant. Adoption Circle believes this is a very important time of parent/child bonding.

Adoption Circle will provide and/or arrange for services for the family or child as may be needed during this period of time. Adoptive parents who believe that their child may be eligible for any type of subsidy must apply for the subsidies during the post-placement, pre-finalization period.

Finalization

During the post-placement period, adoptive parent(s) petition the Court to finalize the adoption, thereby transferring legal custody of the child from Adoption Circle to the adoptive parent(s). The Agency will assist with the process but you will have to hire an attorney to complete the legal paperwork and attend the Court hearing. The fees for the finalization including court costs and the attorney fees are not included in your agency adoption fee. The adoption finalization hearing cannot be held until the child has been in your home for six months.

VIII. Post Finalization Adoption Services

Adoption Circle shall provide post finalization adoption services upon request of the birthparents, adoptive parents and/or adopted person even after the adoption has been finalized. These services shall be provided by trained professionals who are knowledgeable about the legal, social and emotional issues of the adoption process. If Adoption Circle cannot directly provide the services requested, the Agency shall make a referral to other trained individuals who can assist you. There may be a fee for these post-adoption services.

XI. ODJFS Form 0611 Non-Discrimination Requirements

Ohio Department of Job and Family Services
**NON-DISCRIMINATION REQUIREMENTS FOR FOSTER CARE AND
ADOPTIVE PLACEMENTS**

The Multiethnic Placement Act of 1994, 42 U.S.C. 622(b)(9), 671(a)(18), 674(d) and 1996(b) (MEPA) and Title VI of the Civil Rights Act of 1964, 42 U.S.C. 2000d, et seq as it applies to the foster care and adoption process (Title VI), are designed to decrease the time children wait for foster care and adoption placement, prevent discrimination in the placement of children, and aid in the identification and recruitment of foster and adoptive families who can meet each child's needs. They prohibit any agency using federal funds from denying any person the opportunity to become an adoptive parent or foster caregiver on the basis of race, color or national origin (RCNO) of that person, or of the child involved and from delaying or denying the placement of a child for adoption or foster care on the basis of race, color or national origin of the adoptive parent or parents, of the foster caregiver or caregivers, or the child involved.

Under MEPA and Title VI, no agency may routinely consider RCNO as a factor in assessing the needs or best interests of children. In each case, the only consideration shall be the child's individual needs and the ability of the prospective foster caregiver or adoptive parent to meet those needs. Only the most compelling reasons may serve to justify consideration of RCNO as part of a placement decision. Such reasons emerge only in the unique and individual circumstances of each child and each prospective foster caregiver or adoptive parent. In those exceptional circumstances when RCNO need to be taken into account in a placement decision, such consideration must be narrowly tailored to advance the child's best interest. Even when the facts of a particular case allow consideration related to RCNO, this consideration shall not be the sole determining factor in the placement decision.

The following actions by a PCSA, PCPA, or PNA are permitted under MEPA and Title VI:
